[DragonsteelBooks] Menu Navigation Headers when clicked, navigate to correct URL

[+ Add]

Description

When users need to navigate the website using the menu headers, they can navigate to the correct URL.

Test Scenario

Given the user is on the home page

When the user hovers over and clicks on the "Home", "Shop The Catalog", or "Enter the Cognitive Realm"

Then the user should see the links/menus to highlighted and underlined and can be redirected to the appropriate page after clicking.

Dependancies   None

Preconditions

- Main website URL: 🐉 Home | Dragonsteel Books

Test Steps

1. Open webpage
2. click on "Shop The Catalog"
3. click on "Home"
4. click on "Enter the Cognitive Realm"

Expected Test Step Results

After moving to each (should be highlighted and underlined

) and clicking on the menu header links, the user is directed to the corresponding pages.

Example pictured below:

Enter The Cognitive Realm
