[ToursGCW]Overlapping dropdown bars

+ Add

Description

When screen is smaller size on desktop, the Contact Detail and Booked By name dropdown bars overlapping information and make it hard to read and use.
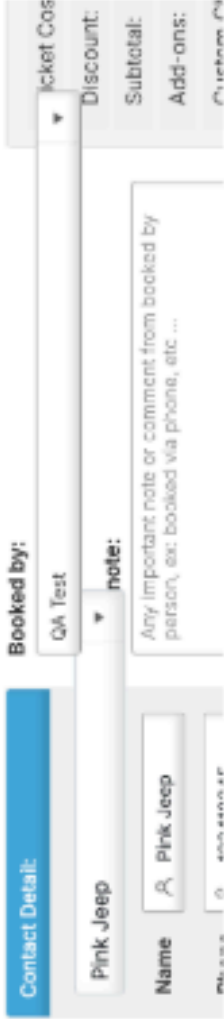

Replication Steps

1. Open website to general admission tour package.

2. resize browser a little smaller simulating multiple windows or tabs open on computer.

Expected Behavior

2. dropdowns should stay within their column limitation and resize and adjust to whatever movement on browser.

Actual Behavior

2. they are jumping into other columns and overlapping information. (see photo)
